(54) OPTICAL DISK

(57) Abstract:

PURPOSE: To prevent copying by providing a region for writing essential data, a dummy region for writing dummy data and a specified sector for writing the copying range.

CONSTITUTION: A magneto-optical disk is provided with a specific sector S0 in an inaccessible region 20 for which the dummy region 12 and the range to be copied are written. When the copying command is issued, at first the specific sector S0 in the inaccessible region 20 is made access. In this sector the range to be copied is designated (i.e., whole data), the copying is impossible since the capacity is over in the storage means of an usual personal computer.
